PowerCut 5-75

Cutting

PowerCut 5-75 is an extremely strong hydrualic and pneumatically operated hose cutting machine for heavy duty production. It has an "open throat" hatch for inserting the hose from the front. It is also equipped with a pneumatic hose pre-bending system, three different cutting strokes, cutting blade brake and variabel cutting speed control to avoid overheating of the cutting blade. Waste is collected in a bin which is readily emtied. PowerCut is suitable for all kind of hoses up to 90 mm o.d. or maximum 6 spiral layered hydraulic hoses.

DIMENSIONS

Length/ Depth/ Height	900x645x1650 mm
Weight	250 kg

DESIGNATION:	PART NUMBER:
PowerCut 5-75 400V 3-phase	9010-00-00

SPARE PARTS:	PART NUMBER:
Cutting blade HSM 520x4x38 Smooth	9005-00-05
Cutting blade HSM 520x4x38 Toothed	9005-00-06
Adapter ring, 50x38	9005-01-04
Smoke evacuation system	9010-01-00

TECHNICAL DATA

Hose capacity 1-2-3 layers	3/16" – 3"
Hose capacity 4-6 layers	1/4" – 2"
Max.outside hose dia	90 mm
Motor	7,5 kW
Voltage three phase	230/400V/25A/50Hz
Velocity	2850 rpm
Diameter (blade), ext	520 mm
Diameter (blade), int	38 mm
Counter	0 - 9999 pcs
Connection to smoke evacuation system	100 mm
Colour	Light grey
