

H16HP

True ergonomic portability

H16HP

H-Line Crimpers

The solution for the user.

In the H-Line crimper design and the operator is in focus. Ergonomic work positions, simple and safe operation are keyfeatures. Together with the purely technical advantages the machines are truly unique.

ADVANTAGES:

- Portable.
- Fast and easy operation.
- Ergonomic operation.
- Easy storage of the dies.

In our smallest on site crimper we have rearranged the pressconcept from zero to create ergonomic portability and use.

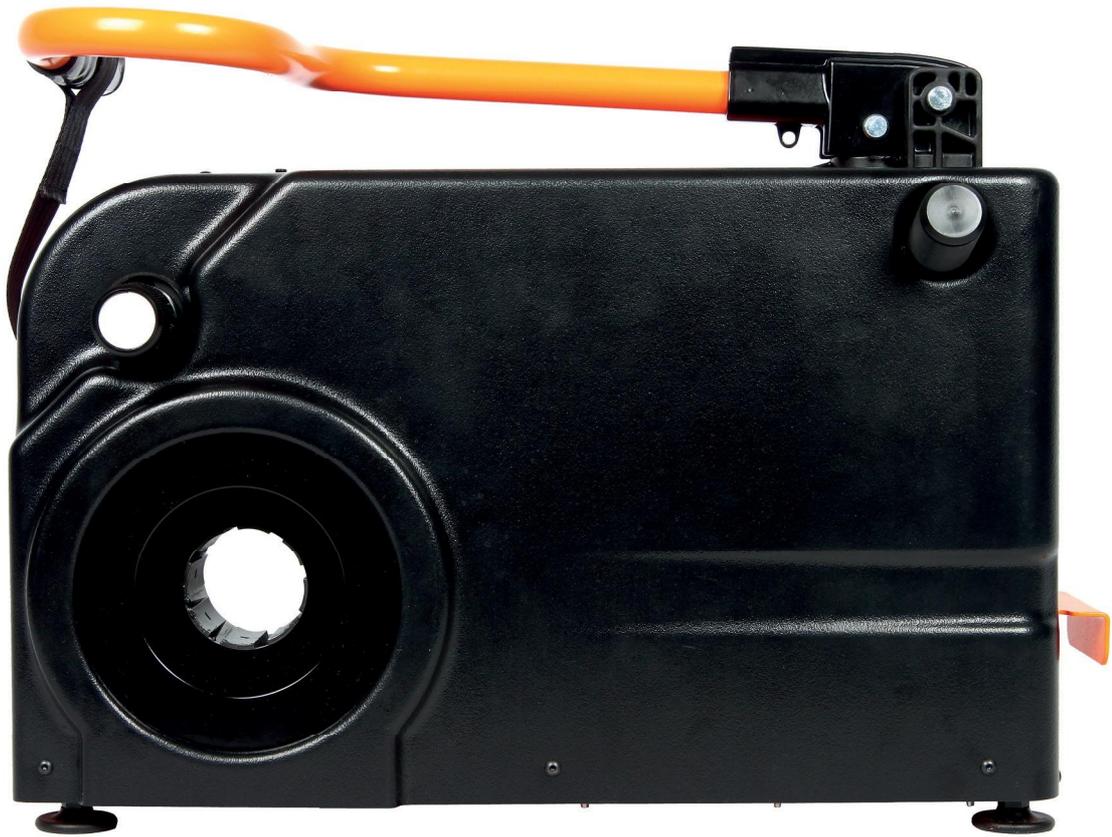

Carried like a briefcase the weight of the press stays close to the leg and saves the operators back.

During operation the handle of the handpump is oriented in a 90 degree angle from the opening of the head creating a correct ergonomic work position.

Furthermore the handle is bent in the end to create a natural grip for the operator.

Crimping dies are kept orderly in an integrated box inside the press.
No more messy mixing of the dies.

DIMENSIONS

Widht/ Depth/ Height500x156x330 mm
 Weight 29 kg

TECHNICAL DATA

Crimping range in mm	10 - 45 mm
Crimping range in inch	0,39 - 1,77
Crimping force in metric tons.....	95,5
Crimping force in kN	955
Maximum hose size in inch	1"
Die Set	H16
Maximum travel of dies in mm.....	20 mm
Master die Diam. /Length in mm.....	39/ 64
Master die Diam. /Length in inches.....	1,54 / 2,52
Machine control	Manual
Motor size in kW.....	630Bar handpump
Motor size in HP.....	630Bar handpump
Colour.....	Black / Orange
